Professional Summary

Full Stack Developer with 3+ years of experience delivering scalable web and mobile applications. Strong expertise in React, React Native, TypeScript, Node.js, and AWS (Amplify, DynamoDB, S3). Skilled in designing REST APIs, implementing authentication and RBAC, optimizing database performance, and translating complex requirements into clean, maintainable code. Experienced in end-to-end project ownership and cross-functional collaboration in fast-paced environments.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, SQL, Bash
Frontend: React (Hooks, Context API), React Native, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, REST APIs, GraphQL, Authentication (JWT, OAuth2), SOLID Principles, Clean Architecture
Databases: PostgreSQL, MySQL, MongoDB, DynamoDB
Cloud & Infrastructure: AWS (Amplify, S3, EC2), Nginx, PM2, Docker
Tools: Git, GitHub, CI/CD fundamentals

Professional Experience

Full Stack Developer – Xira   Nov 2023 – Nov 2025
Remote

- Developed and maintained production web applications for banking, healthcare, insurance, retail, and telecommunications clients.
- Led the design and delivery of an AI-based call simulator platform, taking ownership of frontend, backend, WebSockets, databases, and AWS S3 integration.
- Built REST APIs and implemented authentication and role-based access control (JWT) for enterprise-grade, multi-role applications.
- Optimized backend performance, reducing critical data-fetching operations from 5–7s to 1.2s using indexing, pagination, and caching (Redis).
- Reviewed pull requests and supported TypeScript migration to improve code maintainability and team onboarding.
- Collaborated with cross-functional teams (PM, QA, DevOps, Security) to ensure reliable end-to-end delivery.

Developed Products

OaxaTech — E-commerce Platform   Aug 2023
Full Stack Developer

- Built an SEO-optimized e-commerce platform using React and Node.js with integrated Stripe payments.
- Implemented responsive, modular frontend components and backend REST APIs.
- Applied SEO enhancements to metadata, URLs, and content structure, achieving first-page visibility in search results.

Real Space — Real Estate Sales Platform   Sept 2022
Full Stack Developer

- Designed and implemented a real estate sales platform to streamline lead conversion and quotation workflows.
- Automated PDF generation for client proposals, reducing manual effort.
- Developed backend services using Node.js, REST APIs, authentication, and role-based access control.

Education & Activities

Danone Hackathon Mexico – Frontend Challenge Participant   Jun 2023
Renewable Energy Engineering – Benemerita Universidad Autónoma de Puebla   Aug 2019 - Jul 2022
